DESCRIPTION/OPTIONS: This 2020 Kia Telluride SX is fully loaded and easy on the eyes! It is a one-owner vehicle with a clean Carfax. It has been fully serviced including a new steering shaft and strut assembly. This will come with our 6 month/ 6,000 mile complimentary warranty. Come test it out before it's too late! nnSX Prestige PackageTowing PackagennComfort• Ventilated seats offer warm weather comfort by cooling areas of the occupant's body not exposed to the air conditioning system. • The steering wheel rim is heated. • Ventilated seats offer warm weather comfort by cooling areas of the occupant's body not exposed to the air conditioning system. • Heated seats offer cool weather comfort by warming the seat quickly, before the air in the passenger compartment is fully warmed by the heater. • Heated seats offer cool weather comfort by warming the seat quickly, before the air in the passenger compartment is fully warmed by the heater. • The seating surfaces are covered in leather.Convenience• The cruise control system gets information from GPS navigation data so it knows when to slow down for curves. • This intelligent cruise control system uses laser or radar to maintain a preset following distance behind another vehicle, automatically braking (to a complete stop if needed) or accelerating as required. • Cruise control maintains a preset vehicle speed; automatically increasing or decreasing throttle to maintain that speed. • Access to the cargo area is gained via a large, power-operated rear door that opens upwards. This door may also contain the rear windshield of the vehicle. • A proximity key with keyless entry and push button start allows the driver to unlock the vehicle by approaching it and/or touching the door handle. A keyfob or keycard carried by the driver identifies the person to the vehicle. The driver is then able to start the engine by twisting the ignition switch, pressing a button, or touching a select portion of the vehicle's interior.Exterior and Appearance• A sunroof is located above the first row of seating. • The 2nd row sunroof covers the 2nd & 3rd row seating areas of the vehicle.In-car Entertainment• The primary monitor in the vehicle offers touchscreen control. • This feature allows music to be transferred from a mobile device to the vehicle without the need to physically connect the two devices. • Brand name speakers are provided by aftermarket audio equipment manufacturers and the system has typically been tuned and engineered specifically for the particular vehicle.Powertrain and Mechanical• The part- and full-time 4-wheel drive system allows the driver to manually shift from 2-wheel drive into 4-wheel drive High or Low Range, and in addition, permits the use of full-time 4-wheel drive on dry pavement. • Variable valve control allows the lift, duration and/or timing of the intake or exhaust valves to be altered while the engine is in operation.Safety and Security• The vehicle constantly monitors the roadway in front of the vehicle and identifies and tracks pedestrians on an interior display. If the system determines a likely impact, it will automatically take preventative steps to avoid hitting the pedestrian. • An active blind spot system helps prevent the driver from making a lane change when another vehicle is in their blind spot. • The vehicle is equipped with a system that senses, and then prepares, the vehicle and/or occupants, for an impending forward collision. • With this system the driver's hands must remain on the wheel at all times but can be removed briefly (for a few seconds), otherwise the vehicle will prompt the driver to put their hands back on the wheel. • The vehicle is equipped with a camera that displays an image of the area behind the vehicle on an interior display. • An active lane departure system alerts the driver of unintended movement of the vehicle out of a designated traffic lane and automatically maintains the vehicle's position within that lane. • The vehicle is equipped with a system that senses, and then prepares, the vehicle and/or occupants, for an impending rear collision. • A head-up display projects gauge (speed, RPM, etc.) information onto the inside of the windshield just below the driver's line of sight. • Brake assist senses panic braking from the speed of the brake pedal's travel and applies all available power brake boost.Technology and Telematics• Without the need for a manufacturer specific app to be installed on the smart device, the vehicle infotainment system can access and control functions of a smart device physically plugged-into the vehicle. • The vehicle is equipped with a built-in voice activated navigation system.Comfort• Ventilated seats offer warm weather comfort by cooling areas of the occupant's body not exposed to the air conditioning system. • Heated seats offer cool weather comfort by warming the seat quickly, before the air in the passenger compartment is fully warmed by the heater. • Heated seats offer cool weather comfort by warming the seat quickly, before the air in the passenger compartment is fully warmed by the heater. • The seating surfaces are covered in leather.Convenience• The cruise control system gets information from GPS navigation data so it knows when to slow down for curves. • This intelligent cruise control system uses laser or radar to maintain a preset following distance behind another vehicle, automatically braking (to a complete stop if needed) or accelerating as required. • Cruise control maintains a preset vehicle speed; automatically increasing or decreasing throttle to maintain that speed. • Access to the cargo area is gained via a large, power-operated rear door that opens upwards.
