DESCRIPTION/OPTIONS: Wow!! 55 miles per gallon for this 2020 Hyundai Ioniq Hybrid SE! Hybrid is the way to go if you are looking for something good on gas!nnNo Accidents! One Owner! nnOption Group 01nnComfort • Heated driver and front passenger seatbacks - That's hot. Heated driver and front passenger seatbacks provide more targeted warmth so you can get comfortable quicker in cold weather. If you have lower back pain, you might also be soothed by the heat while you drive. No matter the weather, find comfort in heated driver and front passenger seatbacks. • Automatic air conditioning is a completely integrated electronic system. The system automatically adjusts thermostat and fan settings as needed to maintain a preset temperature. The system may also be operated manually when preferred. Convenience • Cruise control maintains a preset vehicle speed; automatically increasing or decreasing throttle to maintain that speed. A proximity key with keyless entry and push button start allows the driver to unlock the vehicle by approaching it and/or touching the door handle. A keyfob or keycard carried by the driver identifies the person to the vehicle. The driver is then able to start the engine by twisting the ignition switch, pressing a button, or touching a select portion of the vehicle's interior. In-car Entertainment • Touchscreen - flat out convenient. Say goodbye to the twists and turns of your daily drive...we're talking about buttons and knobs of course! Touchscreen allows you to control certain features with your fingertips, making it easy to use while also providing information at a glance. With touchscreen, your fingerprints will be all over your drive. • This feature allows music to be transferred from a mobile device to the vehicle without the need to physically connect the two devices. Powertrain and Mechanical • Variable valve control allows the lift, duration and/or timing of the intake or exhaust valves to be altered while the engine is in operation. • A combustion engine and/or electric motor(s) work together, or separately, to move the vehicle. They can run on gas only, or electric only, or both. Safety and Security • Brake assist - Stop right there. Something jumps out into the middle of the road and you need to stop now! With brake assist, you will. It uses the speed of the brake pedal's travel to sense panic braking, then applies all available power to boost your stopping power. Brake assist can stop the accident before it is one. Technology and Telematics• Smart device mirroring - Smartphone, meet smart car. You can control your device through your vehicle's infotainment system. Smart device mirroring brings together safety and convenience by making it easier to find what you're looking for while keeping your eyes on the road.nn nnTo be sure you don't miss out, give us a call at 207-922-2277 and schedule a test drive. We have 2 locations - 44 Griffin Rd. in Bangor, and 39 Downeast Highway in Ellsworth. Call to verify vehicle's location.nnLinnehan's Right Way Auto - home of the 6 month 6 000 mile warranty and no Doc Fees ever! Right Way Auto has 100's of reviews on Facebook and Google with a 4.9 Star Average! DISCLAIMER: Vehicle may or may not have all of the computer generated equipment/options listed. The system lists all options commonly available within that package but this does not mean this vehicle necessarily is equipped with all of them. Please verify desired options prior to purchase.
