Set it and forget it. Road trips used to be stressful. Cruise control only managed speed, but not distance or safety. Now, with hands-on cruise control, simply set your desired speed and let sensor technology maintain a safe distance between you and surrounding vehicles. It slows you down; speeds you up and even keeps you in your own lane. Meet your ultimate co-pilot with hands-on cruise control. Pedestrian impact prevention - An extra step toward safety. Pedestrians don't always stop, look, and listen, but with Pedestrian Impact Prevention, your vehicle is equipped to better see them and avoid them. This system constantly monitors the road ahead to identify and track pedestrians. It projects that image to an interior display screen, AND should an impact become likely, Pedestrian impact prevention takes steps to avoid a collision.Technology and Telematics Apple CarPlay/Android Auto smart device wireless mirroring AppLink/Apple CarPlay and Android Auto smart device wireless mirroring SYNC 4 AppLink/Apple CarPlay/Android Auto smart device wireless mirroringnn nnTo be sure you don't miss out, give us a call at 207-922-2277 and schedule a test drive.
