DESCRIPTION/OPTIONS: 1967 Mercedes Benz 250S Well preserved piece of history, NO RUST anywhere. These are nearly impossible to find in this condition and this one happens to have an extremely rare color combination. Ive personally admired these cars for years and I've never seen a graphite gray exterior matched with the insanely rare red vinyl interior. The car is 99.9% original with the only aftermarket parts being the gas tank and carpets. The original door cards, seats and dash are in excellent condition. Paint is near flawless and shines beautifully. This car was part of the European delivery program and was delivered to Oklahoma where it started its journey in the states. Owned by European enthusiasts who purchased many w108 chassis' before it made its way to a professor in Maine who truly loved and cared for the car. He never drove it in the winter, garage kept and owned by him for over 32 years. This 250s is equipped with factory electric windows, power steering and AC.
