Road trips used to be stressful, until GPS linked cruise control set the pace. Simply set the desired speed and the system uses GPS navigation data to maintain that speed without driver intervention - including slowing down for curves and anticipating hills. This can help minimize driver fatigue and improve overall fuel economy. Meet your ultimate co-pilot; GPS linked cruise control.Safety and Security Forward collision mitigation - Forward thinking. You look away for just a second and suddenly the vehicle in front of you has stopped. That's when the forward collision mitigation system comes to life. When it senses an impending impact, it will activate a combination of features to help prevent or reduce the severity of an accident. Forward collision mitigation is always looking ahead. Hands-on cruise control. Set it and forget it. Road trips used to be stressful. Cruise control only managed speed, but not distance or safety. Now, with hands-on cruise control, simply set your desired speed and let sensor technology maintain a safe distance between you and surrounding vehicles. It slows you down; speeds you up and even keeps you in your own lane. Meet your ultimate co-pilot with hands-on cruise control. Rear camera - Watching your back! The rear camera helps you see obstacles and hazards you otherwise couldn't by showing enhanced images of what is behind you. The rear camera is an extra set of eyes that's both convenient and safe.Technology and Telematics Android Auto & Apple CarPlay smart device wireless mirroringnnnTo be sure you don't miss out, give us a call at 207-922-2277 and schedule a test drive. nnLinnehan's Right Way Auto - home of the 6 month, 6,000-mile warranty and no Doc Fees ever!
