A touch more back? The choice is yours. Enjoying your drive begins with being comfortable in the driver's seat. With power driver seat fore/aft adjustment, you can find your perfect position to reach the steering wheel and pedals. Not only are you more comfortable, you're safer, too, with power driver seat with fore/aft adjustment.Convenience Cruise control - Set it and forget it. Road trips used to be stressful, until cruise control set the pace. Simply set the desired speed and it will maintain that speed without driver intervention. This can help minimize driver fatigue and improve overall fuel economy. Meet your ultimate co-pilot; cruise control. MechanicalPowertrain and Mechanical An OHV (pushrod) engine typically generates low-end torque sooner than an OHC engine of similar size. Peak torque is achieved at a lower RPM in OHV engines than in other designs, providing good acceleration from a stop.
