**ENGINE: ELECTRIC**

**DESCRIPTION/OPTIONS:** The 2014 Toyota RAV4 EV offers a comfortable, car-like driving experience with a quiet cabin, spacious interior, and refined ride, powered by a Tesla-developed drivetrain. Key comfort selling points include heated SofTex-trimmed seats, excellent rear passenger legroom, smooth electric acceleration, and a powerful and efficient heat pump cabin heating system with dual climate zones. It includes a user-friendly, iPad-like infotainment touchscreen, smart key system, and remote climate control to pre-heat or pre-cool the cabin while charging. Bluetooth phone and audio. The battery pack is located low in the vehicle, providing stable handling. Only 2,500 units were ever produced, all between 2012-2014, making it a rare and potentially collectible vehicle.
