DESCRIPTION/OPTIONS: (Syear)(Smake)(Smodel) You'll see the world in a whole new light when you slip behind the wheel of this impressive 2016 Ford Mustang convertible. The 2016 Ford offers compelling fuel-efficiency along with great value. You will no longer feel the need to repeatedly fill up this Ford Mustang EcoBoost Premium's gas tank, in part because of it's superb EPA rating. A Ford with as few miles as this one is a rare find. This Mustang EcoBoost Premium was gently driven and it shows. More information about the 2016 Ford Mustang: The 2016 Mustang may still have one of the most recognizable names in the automotive world, but with its current design, it's far more than just a pretty face and a familiar name. It represents one of the best value propositions for buyers who just want the fastest car for their money. There is no longer a slow Mustang and a fast Mustang; there are just fast and even faster versions. The Mustang starts at just over \$24,000, a price that undercuts most of its less powerful rivals, such as the Subaru BRZ. Even when optioned out beyond the \$40,000 mark, the Mustang still represents a tremendous value. Strengths of this model include improved fuel economy, Mustang mystique, modernized styling, sporty handling, powerful engines, and available as a convertible
