DESCRIPTION/OPTIONS: Check out this gently-used 2017 Ford Mustang we recently got in. It's like taking a beach vacation each time you slip behind the wheel of this seductive, sporty convertible. This 2017 Ford Mustang has such low mileage it has been parked more than driven. You could keep looking, but why? You've found the perfect vehicle right here. More information about the 2017 Ford Mustang: The 2017 Mustang may still have one of the most recognizable names in the automotive world, but with its current design, it's far more than just a pretty face and a familiar name. It represents one of the best value propositions for buyers who just want the fastest car for their money. There is no longer a slow Mustang and a fast Mustang; there are just fast and even faster versions. The Mustang starts at just over \$24,000, a price that undercuts most of its less powerful rivals, such as the Subaru BRZ. Even when optioned out beyond the \$40,000 mark, the Mustang still represents a tremendous value. Interesting features of this model are available as a convertible, powerful engines, Mustang mystique, modernized styling, improved fuel economy, and sporty handling
